

Isn't your time more valuable?

"Time" is the one commodity most busy people just don't seem to have enough of these days.

For many upwardly mobile and dual income families today, the home we've worked so hard to obtain is a time-consuming chore to maintain.

We can give you more time to do those things you need to do, or would rather be doing, instead of spending endless hours on mundane housework.

Our weekly, biweekly and monthly service includes the following:

GENERAL CLEANING
Dust, polish or wipe all furnishings, baseboards, window sills, shelves, and ledges.
Vacuum carpets and furniture.
Dust mop bare floors. And more

KITCHEN
Clean sink, counter tops, outside of cupboards and drawer fronts, refrigerator, stove, other appliances and floor.

BATHROOMS
Clean and disinfect tub, shower, toilets and floor. Clean and polish mirrors, fixtures, vanities and floors.

"EXTRA TASKS"
Windows, oven, refrigerator
Patios and porches
Moving day cleanups, spring and fall cleanings

NEVER
Clean
Your
Home
Again!

Nine important reasons why you should let us clean your home.

1. You have better things to do with your time.

"I don't have time. I have to clean the house." Sound familiar?

Maybe it's time you joined the ten million American households who have already turned to professional residential cleaning services as a solution to their time-consuming house cleaning chores.

Here are eight more important reasons you should let our company be your solution.

2. We do it your way.

No two households are exactly the same even if identical in size and layout. We first visit your home to determine your specific needs. If you have (or had) a cleaning service, we like to learn what you liked or disliked about your previous house cleaners. Together, we'll determine how best we can meet your needs and expectations.

3. Consistently thorough

Your customized quotation is transformed into an individual "work order" for your assigned cleaning team. Your cleaning team supervisor signs off after ensuring that each item has been looked after before leaving your home.

4. Responsible, bonded, insured and supervised personnel.

Our house cleaning staff is screened, professionally trained, covered by workers compensation insurance — and motivated by your satisfaction with their work.

Our company is locally owned and operated, bonded and insured. Our workers are employees — not unsupervised, independent contractors.

Your assigned team will always show up, neatly groomed and attired, on your scheduled cleaning day.

5. We bring our own equipment and cleaning supplies.

You actually get to stop worrying about all that "stuff" that takes up space under the sink, your laundry room, and garage — or wherever you store your cleaning supplies.

We always bring our own professional cleaning products every time. The most conscientious and professional house cleaner can't perform any better than the quality of the equipment or cleaning products being used. We use professional cleaning tools, equipment, materials and cleaning supplies that are effective, efficient, safe and environment-friendly.

Note: All employees are subject to drug testing, a police background check and fingerprinting prior to employment

6. We visit. We don't move in!

We will spend the necessary time and effort on our first cleaning visit to get rid of all the "old" dirt, dust and grime that may have been accumulating for a long time. Think of it as a "spring cleaning."

However, because we work in teams and use efficient cleaning methods, when we come to clean your home every week, or every other week, we won't be in your home (or your hair) all day.

7. Flexible scheduling.

We will work with you to develop a schedule to suit your individual needs.
